m:tech

Tomorrow's Music Makers...Today

November 2026

Dear Parent / Guardian,

Re: M:Tech Music Technology at The Raleigh School

We hope your child enjoyed our M:Tech music technology assembly at school and felt inspired by the world of music-making.

M:Tech is a small-group music technology and composition course where children create their own original music using professional software, working on projects including movie trailers, animations, video games and TV adverts.

As an **official Creative Partner of ABRSM**, children taking part can work towards the **ABRSM Creative Musicianship qualification**, an exam-free pathway with progression through the higher levels ultimately leading towards **UCAS points**.

We would love to introduce M:Tech at The Raleigh and are now asking families to **register their interest**. Lessons are 60 minutes long, take place weekly in small groups after school and cost **£18.70 per lesson**.

To find out more and register your interest, please visit:

www.mtechonline.co.uk/raleigh

There is no commitment or payment at this stage. Once we have an idea of numbers, we will work with the school to explore the best way to accommodate interested children.

Best wishes,

Jack Hardman

Jack Hardman
Director of Music, M:Tech
