Subject intent: Our music curriculum is designed to increase self-confidence, creativity, and a sense of achievement. High-quality teaching and resources inspire children to develop a love of music and their talent as musicians. Children develop a critical engagement with music enabling them to compose and to listen with discrimination to the best music the world of music has to offer.

If you were to walk into a Music lesson at The Raleigh, you would see: Children actively learning and exploring in a dedicated music room with access to a wide range of high quality resources. Classes and groups of children singing and playing instruments with enthusiasm. Children who are confident to perform, talk about and demonstrate their skills with pride, using appropriate musical vocabulary. Collaboration and teamwork.
