

Sports Premium Funding for 2016-17

Development	Cost	Impact
CPD Dance and Drama training for all staff to broaden the PE curriculum and widen access	£1,700	Our Dance teacher, who is funded by the Sports Premium, has become an important part of our PE curriculum to ensure an even teaching of all year groups. She provides high-quality dance instructions, in which all children are involved and results in a final piece. Teachers have gained knowledge and confidence by being part of these lessons also. Routines taught in class workshops were often used in class assemblies and at the summer fair giving children the opportunity to showcase what they had learned and enjoyed. The planning provided by the dance teacher can be used by the teachers to re-create the lessons, as well as using videos of the final dances. We took part in the Surrey Sports Dance Festival because our dance instructor was able to teach and choreograph a fantastic dance routine that was recognised at the festival for its unique and slick routine, linked to 'Olympic Values'. Although it was not a competition, the children were asked to perform at the opening ceremony of the 'Surrey Games' which was a fantastic experience for the children.
Sports Crew Training	£90	As a result of that and other significant markers in sport, such as leadership opportunities, the school has retained its Gold Sports Mark for another year. The Sports Crew is made up of selected children from Year 6. They had to write a letter to persuade the PE lead why they should be a member of the Sports Crew. Their first job was to attend formal training, provided by Active Surrey. In the Summer term, they led an assembly promoting the new style of KS2 Sports Day. They were given other leadership opportunities, such as leading KS1 children in a 'PhysiFun' lunchtime club. The Sports Crew also helped to organise the KS1 Sports Day, encouraging the younger children and proving themselves to be great role-models.
PhysiFun training and equipment	£150	
Hire of Horsley FC 4G Pitch for ELP sports event	£135	We were able to host both intra-school and inter-school competitions. All children took part in a House Cross-Country event at the beginning of the year. Regular events such as this help to improve the children's fitness and their attitude towards sport. The profile of PE was raised within the school, but also with the Effingham Learning Partnership, where we hosted a Rounders and football tournaments. These were for boys and girls and schools entered A and B teams; providing an inclusive sports environment.
Hire of portable toilet facilities at the Weston Lea playing field to encourage additional use of the facility	£343	
Miscellaneous new sports equipment	£500	
Costs incurred in organising Intra school and house events	£400	

External provider supporting school by coaching and staffing at a wide range of external events and cost of transporting to a wide range of events	£1,000	The list of sports clubs has increased and participation in extra-curricular sport has risen too. Over 50% of the children represented the Raleigh School in a sporting activity last year. The funding has ensured wider inclusion of a participation in various sports. We had fantastic results; reaching the county finals of dodgeball, kwik-cricket and tri-golf. Children who have never participated in a sport before had a chance to represent the school at events.
Multi-sports goal end for playground extension to encourage further use of the facility	£5,000	Newer and bigger mats were also a priority as the new KS1 cheerleading club means they are being used twice as often in the week now and the children need more safe space to move around on. The mats have been purchased, resulting in the children having good quality mats to perform routines on and enough for all children.
PE Mats and trolley	£700	We purchased new equipment, which has benefitted our new approach to KS2 Sports day. All children participate in four events, which aim to extend children's skills, such as throwing and running.
TOTAL	£10,018
