**'Journeys Science Week' - 4<sup>th</sup> June- 7<sup>th</sup> June 2019**

Dear Parents,

As you are aware, we are holding a cross-curricular science week this year. We aim to provide children with the opportunity to understand the importance of scientific skills, knowledge and understanding and its impact on our everyday lives.

On Tuesday 4<sup>th</sup> June, 'Sphere Science' will be delivering a whole school interactive assembly to all children, followed by a variety of different workshops throughout the day for KS1 children.

On Wednesday 5<sup>th</sup> June, 'Sublime Science' will deliver a whole school 'dry ice assembly'. This is followed by a range of different workshops for KS2 classes.

Throughout the course of this week, all children across the school will become immersed in the world of science! Each year group has a specific theme and children will embark on a scientific journey to create a group project by the end of the week. Therefore, after school, on **Friday 7<sup>th</sup> June**, all parents are invited to Open House to view their child's fantastic projects.

In addition, some parents have kindly volunteered their time to talk to selected year groups about their scientific professions, in order to inspire our children further. If this is something of interest to you, please do not hesitate to contact Lesley Light, at the school office ASAP. Please clarify what you can offer, your availability and age range.

We kindly ask for a voluntary contribution of £5.00 by Friday 24<sup>th</sup> May 2019 payable on-line via Tucasi.

We confirm that the payment represents our estimate of the costs for the workshops and additional resources for the week's science projects, shared equally amongst each pupil.

Many thanks

Alex Pedace

Science Lead
